

## ABOUT SHPE NJ

The NJ Professional Chapter of the Society of Hispanic Professional Engineers believe in empowering students and professionals to realize their fullest potential by providing access to a series of professional and leadership focused workshops, as well as networking opportunities that will give both parties an advancement in their career paths. Our goal is not only to empower our members to excel in their careers, but also to inspire students to be part of a strong support system that can ultimately change lives.

## EVENT DETAILS

The objective of the Case Study Competition is to provide high school students the opportunity to develop and deliver a technical response towards a real-life topic; whilst still promoting the pursuit of higher education in the STEM fields. In addition to the Case Study presentations, students will also participate in a day filled with workshops, introducing them to the different aspects of engineering and self-development.

The Case Study portion will give students the opportunity to learn the importance of teamwork in the engineering setting. After the students complete their research on the presented issue, they will be required to present their approach and ideas to a panel of judges.

## OUR GOALS

- Motivate high school minority students to pursue careers in the STEM field and provide them with support at an early stage of their undergraduate education
- Spread awareness of SHPE to more minority students
- Expose young students to engineering challenges that may arise and critique on responses they may have formulated

## FACTS

According to the U.S Census Bureau, Hispanics constitute 7% of the STEM workforce as of 2011. In order to further improve these trends, SHPE focuses on STEM awareness by promoting the importance of a STEM education and occupation among the diverse community of New Jersey.

## OUR BUDGET

A summary of our estimated budget can be found below. To view a detailed budget, please click [here](#).

- Scholarship money awarded to the winning team: \$1,250\* (\$250 per person; max 5 per team)
- Award materials: \$237
- Breakfast & Lunch: \$635

\*If we receive more money that covers our budget and scholarship, we'll increase the scholarship award amount.

## WHY SPONSOR?

Your donation of any amount will grant you the following:

- The ability for your employees to volunteer as judges for the competition
- The opportunity to host four 45-minute workshops
- Your logo will be posted on all award certificates
- Corporate exposure to the students and the community
